Healthcare Innovation

Healthcare Services & Solutions

Accelerate **Healthcare Innovation** with FPT Software's comprehensive end-to-end services

Our service portfolio is powered by:

NEXT-GEN TECHNOLOGIES

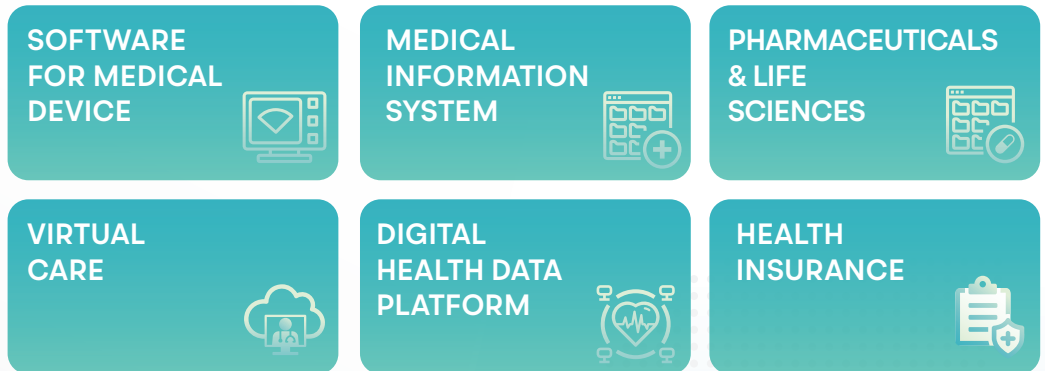

- Internet-of-Things
- Cloud Computing
- Artificial Intelligence
- Data Analytics

READY-MADE SOLUTIONS

- Digital Health Platform
- akaAT

Our capabilities & expertise include:

Regulations and Compliances:

Technical Standards:

Products Portfolio

Building a custom data platform from scratch navigates your business towards a data-driven and patient-centered health system. Traditional medical devices can be used with modern and digitalized health management systems for better insights and sharper decision-making.

akaAT

An end-to-end automation testing ecosystem that converges all SaaS testing platforms, tools and management system to make the testing journey way more efficient, faster and cost - saving for healthcare organizations

Digital Health Platform

Chronic disease management solutions incorporate tools for doctors, caregivers, and consumers to monitor the condition jointly.

Software for Medical Device

FPT Software's ever-growing decade-old experience of working with significant healthcare players allows us to provide professional software solutions such as firmware, device control, modality console, CAD for industrial medical devices, including:

DIAGNOSTIC IMAGING

MRI / CT system

X-Ray Diagnostic

Endoscope system

Ultra-sound system

- CT applications (Bodyfat/LAA/Colonoscopy/Lung/Perfusion/Coronary/Dental analysis)
- Image reconstruction & Quality Adjustment
- Endoscopy Imaging processing & integration
- AI-powered cancer real time detection

CLINICAL LABORATORY DIAGNOSTIC

- Hematology analyzers

RADIATION THERAPY

- Tumors position real time tracking
- Device peripheral Control

Beside offering software solutions for medical equipment, we also provide solutions for pets' diagnosis imaging with X-ray Imaging, US, CT, MRI and Nuclear Medicine Imaging.

Medical Information System

Our diversified services and IT Solutions offer compelling contributions to hospital and clinic management, such as HIS – from legacy systems to cloud-based and mobile devices for better convenience and effectiveness; PACS, with new functions such as mammography viewer and more.

HOSPITAL MANAGEMENT SYSTEM

- Patients Registration
- Appointment and Scheduling
- Outpatient Management
- Radiology Information System
- Laboratory Information System

MEDICAL IMAGING SYSTEM

- PACS Solutions
 - AI Cloud PACS
 - Mobile DICOM Viewer
 - AI-based Smart Diagnosis

HOSPITAL TELEMETRY SYSTEM

- ECG, Body Temperature, SpO2 Monitoring
 - Cardiac Rehabilitation
 - Fall Detection
-

Pharmaceuticals

FPT Software's digital transformation solutions utilize a cloud-based system, web interface and mobile app to lighten the traditional manual and paper-based processes, especially patients management systems and personal medication prescription management.

MEDICATION MANAGEMENT DIGITAL PLATFORM

- Patient mobile app
 - ePrescription
 - Medication reminder
 - Medication 1-click ordering
- Doctor app
 - Prescribe, re-prescribe
 - View patient history
- Pharmacy app
 - Manage patient orders
 - Order processing
 - Promotion program
- Pharmaceutical/Manufacturer app
 - Performance report
 - Patient Engagement

PHARMACEUTICAL MANAGEMENT

- Distribution system
- Tender system
- Inventory Management

Life Science

BIO-BANKING & LAB MANAGEMENT SYSTEM

- Storage management & utilization.
Inbound/outbound shipment workflow.
- Lab workflow
- Service request and tasks

Virtual Care

We help healthcare providers and health tech companies to transform care delivery with virtual medical services that leverage the latest technologies, allowing high-availability at an optimized operation cost.

TELEMEDICINE

- Telehealth for dental clinics and veterinary
- Wellness platform for insurance customers
- Mental health therapy

REMOTE MEDICAL CENTER

- Teleradiology platform
- CTG Station

IN-HOME HEALTH SERVICE

- AI-based Chronic Disease Management
 - Insulin Dose Management
 - Inhaler Monitoring/Resupply

Digital Health Data Platforms

Our centralized and distributed healthcare data platforms help transform traditional care delivery toward a patient-centred health system. Conventional medical devices can be used with modern and digitalized health management systems.

DATA PLATFORM & INTEROPERABILITY

- Unified Data Platform and data services
- Clinical data exchange
- EDI 837 claim data pipeline
- Lab ordering and result submission
- HL7, HL7v2, HL7 FHIR, MLLP

DATA ANALYTICS

- Healthcare Data Lake - Data Warehouse
- Data Analytics for Aged Care Center
- Data Analytics IoT
- Common data models: OMOP, i2b2, PCORnet, Sentinel

MEDICAL DEVICE ECO-SYSTEM

- Internet of Things (IoT)/ Internet of Medical Things (IoMT) / Smart medical devices such as Insulin Pens, Inhalers, Thermometers
- Data management
- Dashboard & Reporting

Health Insurance

TPA CLAIM PROCESSING

- TPA claim processing and payment
- Medical Benefit Policy
- Manage in-network service providers
- Portals for clinics, corporates, and payers
- Patient mobile app
- Insurance eCard

HEALTH RISK ASSESSMENT

- Health risk assessment
- Risk adjustment
- Medical Chart coding
- Medical Code sets: ICD-10, CPT, CDT
- Encounter data error management
- Claim validation and submission

We provide end-to-end services that accompany our clients in every step of the progress. Our portfolio comprises consulting services on technologies, solutions and implementation services - from technical design, and IT infrastructure setup to deployment and maintenance.

5 REASONS TO GO WITH US

-  Speed
-  Presence
-  Compliance
-  Quality
-  Scalability
